

NETWORK #LIKEAPRO

1. SET YOUR OBJECTIVES

Before attending any recruitment or industry sharing event, consider why you are there, what you hope to achieve from your participation, and how you can connect with others. This will serve as a useful guide to keep you on track as you meet industry professionals.

2. BE PREPARED WITH AN ELEVATOR PITCH

When meeting new people, have a short impactful introduction. State your name, your background and experiences which would be of interest to the other party. Invite the other party to share with you about their work or industry insights.

3. BE READY TO ENGAGE

As you move around the room to speak with different people, listen more than you talk. Ask good relevant questions and take genuine interest in people and what they are saying. Be mindful of your body language and thank the person before moving to the next conversation.

4. EXCHANGE CONTACT DETAILS

Be sure to bring your name card along, or exchange LinkedIn details with the other party, so that you can connect and stay in touch even after the event.

HAPPY NETWORKING!
